EXPERIENCE

2022–26 **Encuadrado (Y Combinator S21)**
Engineering & AI Agents Lead
Scheduling, invoices and payments for independent professionals across Latin America.

- One of the 3 people who founded Engineering team. Kickstarted and owned the AI agents line end to end, backoffice and user-facing.
- Designed and shipped the main agent against the live product surface: booking, payments, and customer conversations.
- Set the technical direction for the stack the team builds on, and the review bar that keeps it maintainable.
